WORK EXPERIENCE

Toyo Engineering India Pvt Ltd, Mumbai

Graduate Engineer Trainee, Digital Transformation Engineering (DXE) Dept

07/2024 - Present

Mumbai

Achievements/Tasks

- 1. Developed a Python application to extract and organize data from multiple PDFs at once, storing each section's data in separate sheets of an Excel file, with an additional column to identify the source PDF for precise organization.
- 2. Actively engaged in learning Alteryx, mastering its analytics and visualization capabilities.
- 3. Plant3D instruments Creation using python.

PROJECTS

IndiaMart Website (03/2023)

- Developed an e-commerce website resembling IndiaMart using HTML, Tailwind CSS, and JavaScript. Created a seamless shopping experience with product listings and search functionality, ensuring cross-browser compatibility and optimized performance.

Pigmy App Front-end (03/2023)

- Designed and built the user interface for a pigmy deposit management app using HTML, Tailwind CSS, and JavaScript. This made it easy for users to handle their pigmy deposits.

Expense Manager (03/2024)

- This Expense Manager project showcases the integration of front-end and back-end technologies to create a user-friendly and efficient tool for tracking and managing daily expenses. The use of Bootstrap ensures a visually appealing design, while PHP and MySQL provide the necessary functionality for data processing and storage.
