Technologies: J2SE/J2EE
Experience: 2 years

Mobile No: +91 9798938824

Objective:

To achieve a challenging position in Software Development in a result-oriented company, where acquired skills and education will be utilized towards continuous growth and advancement with challenging projects.

Experience summary:

- 2 years of experience in java Development, Testing, Documentation, Integration, and Maintenance of web based and Client/Server applications using Java and J2EE technologies.
- Experience of working in a **Microservices, Spring Boot** and Services oriented architecture in web-based development.
- Excellent working knowledge in developing web-based applications using popular frameworks like **Spring Core, Spring AOP, Spring MVC, Spring Boot, Spring Data JPA and Hibernate**.
- Having good knowledge in **Restful Services (JAX-RS)**.
- Having good knowledge in **Gen AI**.
- Having good knowledge in **System Design**.
- Experience with major databases such as **MySQL, MongoDB and Oracle**.
- Implemented **Object Oriented Programming** and **Design patterns (Strategy Design Pattern, DAO, Factory Pattern, Singleton Pattern, Template method pattern)**.
- Experience in Working with **Hibernate XML and Annotation** based Configuration.
- Experience in using the development tools like **Git ,Log4j, JUnit and Maven**
- Good Knowledge in XML related technologies like (**XML, XSD, JAX P, JAX B**).
- Good knowledge on **UI development (Gen, React JS, Thyme leaf, JavaScript, CSS, HTML)**.

Education:

- B.Tech in Computer Science Engineering (Data Science) – Ik Gujral Punjab Technical University (2021-2025) – CGPA: 7.32

Area of Expertise:

Frameworks	Hibernate, spring Core, Spring MVC, Spring Boot, Micro services, RabbitMQ
Programming Language	Java 7,8
Java Technologies	J2SE, J2EE, Restful Web Services with JAX-RS, JAXP, JAXB.
Web Technologies	React JS, HTML, Thyme leaf, CSS, JavaScript.
Design Patterns	Singleton, Factory, Abstract Factory, Controller, Data Access Object (Dao), Service Locator, Proxy.

Web/Application Servers	Apache Tomcat, Web Logic server, JBoss.
Unit Testing	Mockito.
Database	MySQL, MongoDB, Oracle.
Operating Systems	Windows XP,7,10,11
IDE/Plugins/Tools	My Eclipse, IntelliJ, STS, Visual Studio Code, Maven, GIT, Postman.

Area of Expertise:

Project 1

Title : Retail Data

Team Size : 6

Environment : java 8, Maven, Log4j, Junit, PMD, CPD, IntelliJ, Git.

Description: - We were Developing Rest API to generate PDF four different modules like Account Statement, Recharge PDF, Fund Transfer PDF, Bill Pay PDF etc. these API where stand-Alone API we have a response.

Responsibilities:

- Involved in Client interaction on regular basis to understand the Business of the Client.
- Implemented Agile Methodology that includes weekly meeting with business analysts and monthly sprint review with clients.
- Involved in the Analysis, Design, Coding, modification and implementation of user requirements.
- Using Micro services in build the project.
- Involved in the Generated PDF Using Micro services as per client requirement like Mobile Recharge, Bill Pay, Account Statement, Fund Transfer.

Project 2:

Title : Prima Dollar

Role : Software Engineer

Team Size :3

Environment : Java 13, Spring Boot 1.5.x, JPA, Maven, Log4j, MySQL, RESTful APIs, Git, JUnit, Visual Studio Code, Tomcat Server, SVN, Azure Directory.

Description: - Prima Dollar is a finance trade platform that acts as a mediator between customers and factories. The system enables secure product transportation across locations and ensures guaranteed delivery through centralized management and tracking.

Responsibilities:

- Developed RESTful APIs and microservices using Spring Boot.
- Integrated Azure REST APIs and performed CRUD operations using controllers and repositories.

- Implemented Spring Boot controllers and utility components.
- Performed unit testing using JUnit to ensure application reliability.
- Worked on database integration using MySQL and JPA.
