PROFESSIONAL SUMMARY

Full Stack Java Developer with 3+ years of experience in designing, developing, and maintaining scalable, enterprise-grade web applications. Proficient in Java, Spring Boot, Microservices, and modern frontend frameworks such as Angular and React. Experienced in end-to-end development including RESTful API integration, database optimization, and cloud deployment.

TECHNICAL SKILLS

Backend	Java (J2EE), Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, RESTful Web Services
Frontend	Angular, React, JavaScript, TypeScript, HTML5, CSS3, Bootstrap
Databases	MySQL, PostgreSQL, SQL Server (Stored Procedures, Views, Indexes)
Tools & DevOps	Git, GitHub, Maven, Gradle, Postman, Swagger, Jenkins (CI/CD), Docker, Linux
Cloud	Microsoft Azure (App Services, Storage, CI/CD), AWS (Basic Exposure)
Architecture	MVC, Microservices, REST API Design, JWT Authentication, Agile/Scrum

PROFESSIONAL EXPERIENCE

N.V. Data Systems Private Limited

Full Stack Java Developer

Bengaluru, India

Oct 2022 – Present

- Lead end-to-end design of scalable enterprise applications, architecting robust backend services using **Spring Boot** and building responsive interfaces with **Angular and React**.
- Implement secure **RBAC** using **Spring Security and JWT**, while improving system efficiency through schema optimization and SQL query tuning.
- Spearheaded the migration of legacy monolithic modules to a **Microservices architecture**, enhancing system scalability and fault tolerance.
- Reduced API response latency by **30%** by implementing **Redis caching** and optimizing Hibernate JPA query execution.
- Streamlined **CI/CD pipelines** using Jenkins and Azure, reducing deployment cycles and improving release stability.
- Collaborate in **Agile** environments, managing the full SDLC from sprint planning and Jira tracking to production support and Swagger API documentation.

PROJECTS

* Energy Asset Monitoring & Reporting System *

Petroleum & Gas (Canada)

- Developed a robust web-based application to monitor energy assets, track maintenance schedules, and generate compliance reports .
- Engineered RESTful APIs using Java and Spring Boot for modular asset tracking and real-time maintenance monitoring .
- Built high-performance operational dashboards using Angular for real-time data visualization .
- Optimized PostgreSQL indexing and query execution to handle large-scale energy datasets efficiently .
- Assisted in Azure cloud deployment, focusing on performance tuning and stable production monitoring .

* Logistics Billing & Operations Management *

Logistics (Saudi Arabia)

- Built an end-to-end logistics system to manage shipment billing, vendor settlements, and warehouse operations[cite: 37].
- Developed scalable backend services using Spring Boot and integrated APIs for real-time shipment status updates .
- Designed and developed responsive user interfaces using React for finance and operations teams .
- Optimized MySQL database schemas for reporting accuracy and handled production issue resolution .

* Customer Account & Payment Platform *

Banking (United States)

- Developed a secure financial platform for account management and transaction history with compliance-ready architecture .
- Implemented secure login and authorization via Spring Security with JWT authentication for data protection .
- Leveraged SQL Server stored procedures to ensure transactional consistency and complex data validation .
- Integrated audit logging and standardized response mechanisms to satisfy banking security standards .

EDUCATION

2022	Bachelor of Engineering (M.E.) <i>CGPA: 7.86</i>	G.H. Raisoni College, Nagpur
2017	Higher Secondary Certificate <i>Percentage: 56.60%</i>	R.S.S.G.K. Agarwal Jr College
2015	Secondary School Certificate <i>Percentage: 63.60%</i>	Sawitri Memorial High School

DECLARATION

I hereby declare that all the information provided in this resume is true, complete, and correct to the best of my knowledge and belief.

Place: Pune, Maharashtra
