01/09/2025

PROJECTS

AI-Driven Healthcare Chatbot, SIH 2025 Grand Finalist

Built an AI-powered healthcare chatbot for Smart India Hackathon 2025, providing symptom-based preliminary guidance and conversational health assistance; recognized as SIH 2025 Grand Finalist.

Crypto Spark

Crypto Spark – Built an AI-powered cryptocurrency analytics web application with a responsive and user-friendly interface, leveraging the CoinGecko API to display real-time cryptocurrency prices, market trends, and actionable insights.

Stock Analyst Agent

AI-powered stock analysis assistant that generates market insights and trend summaries using APIs, AI tools, and automation workflows.

Book Infinite Scrolling Webpage

Google Translator, React, Axios api

Developed a real-time language translation web application using React.js and Axios API integration, enabling multilingual text translation with a responsive user interface.

Learn Nova learning platform Website

– Designed and developed a responsive e-learning platform website with structured course sections and intuitive navigation.

Tea Verse webpage

Built a responsive product landing page with modern UI design, focused on showcasing tea products and enhancing user engagement.
